IHSAN SAFETY WEAR
The Denim Edit
ISW
IHSAN SAFETY WEAR

From Workwear To

GLOBAL DENIM

IHSAN, established in 1978 in Karachi, manufacturer of work safety and protective gear, producing a wide range of knitted gloves, dotted, dipped and leather gloves including CE-certified PVC dotted styles for international markets.

Further diversifying, IHSAN developed a garment division with a capacity of 50,000 pieces per month, specializing in premium and technical workwear

Building on its growth in apparel, IHSAN has now introduced denim garments and is already exporting to South American markets, marking a strong step into fashion alongside functional workwear.

“From Workwear to Rewear – IHSAN Denim, Designed to Protect You and the Planet.”

At IHSAN Safety Wear, sustainability is becoming a core focus as we expand into denim. We are committed to responsible production by exploring recycling initiatives such as reusing denim waste, incorporating recycled fibers, and minimizing fabric wastage during manufacturing. By adopting efficient washing techniques, reducing water consumption, and sourcing environmentally responsible materials, IHSAN aims to lower its environmental footprint while maintaining the durability and performance our products are known for. This approach allows us to merge workwear functionality with sustainable fashion, contributing to a more circular and responsible textile industry.
